DND Technical Reports at the Canadian War Museum

Introduction

In the 1990s, a large number of historical technical reports were transferred from the Department of National Defence to the Canadian War Museum. The sequence began during the Second World War with reports on vehicle testing carried out at the Ordnance Proving Grounds (OPG) near Ottawa, Ontario, continued through the reorganizations and re-naming of the facility over the years, and ended with some reports from the Land Engineering and Test Establishment that closed in 1994. The collection included a sequence of reports from the Army Engineering Design Branch of the Department of Munitions and Supply (DMS), as well as documents from other countries and organizations.

The importance of the OPG to LETE sequence - more than 750 reports - is that, for the most part, they are original reports, with the original photographs and data sheets. *Also, they are the only known, surviving copies.* The DMS group - more than 350 documents - are mostly photocopies, and again, are the only known surviving copies of the reports.

In 2006, with the museum in a new building, the reports were sorted, properly stored, and a finder's aid [list] was created for the collection. This document is a pdf version of the finder's aid's MS-Excel file, with an introduction and glossary.

The collection received from DND was retained as a unit in the CWM archives. The CWM has other reports from the same series that had been received separately over the years, and they are included in the CWM library, not their archives. Anyone who is searching for a specific report should check the library search engine as well as this document.

Access to the reports is through the Military History Research Centre at the Canadian War Museum.

The General Sequence of Units

- No. 1 Proving Ground Establishment, RCOC, formed 23 July 1941, which became
- No. 1 Proving Ground Establishment, RCEME, formed 15 May 1944, which became
- No. 1 Vehicle Proving Ground Establishment, formed 1 August 1944, which became
- The Vehicle Development Establishment (VDE), formed 1 October 1946, which became

- The Vehicle Experimental & Proving Establishment (VEPE), formed 4 May 1954, which was amalgamated into
- The Army Development Establishment (ADE), formed 1 September 1958, which became
- The Army Equipment Engineering Establishment (AEEE), formed 6 September 1961, and was amalgamated into
- The Land Engineering Test Establishment (LETE), formed on 22 March 1967, and that was disbanded in September 1994.

Some Organizational Abbreviations in the Reports

The following abbreviations are used in the reports. At this time (early 2021, I cannot get access to the reports to get the missing ones.

ADE - Army Development Establishment.

AEDC -

AEPC -

AHQ/VDE - Army Headquarters / Vehicle Development Establishment.

CAL - Canadian Arsenals, Limited.

CARDE - Canadian Armament Research and Development Establishment. This was the predecessor of the Defence Research Establishment, Valcartier.

CDND -

CEPRE / DPBRWO

CITC - Canadian Infantry Training Centre.

DAD - Directorate of Armament Development.

DATM -

DED - Directorate of Engineer Development.

DEETL -

DIARM -

DID -

DMS - Department of Munitions and Supply, Army Engineering Design Branch

DNDA -

DQMG - Deputy Quartermaster General.

DVD - Directorate of Vehicle Development.

DWD - Directorate of Weapons Development.

EES -

ESTC -

FVRDE - [British] Fighting Vehicle Research and Development Establishment.

GMC - General Motors Corporation

IBUK&C - Inspection Board of the United Kingdom and Canada.

LETE - Land Engineering and Test Establishment.

MGO - Master General of the Ordnance.

MSVSDE - [British]

NDHQ/VPE - National Defence Headquarters Vehicle Proving Establishment

OMG -

OPG - Ordnance Proving Ground.

QETE - Quality Engineering Test Establishment.

RCSA (AA) - Royal Canadian School of Artillery (Anti-aircraft).

RC Sigs - Royal Canadian Corps of Signals.

RCSME - Royal Canadian School of Military Engineering.

TTIS/CJATC - Technical Tactical Investigation Section at the Canadian Joint Air Training Centre at CFB Rivers, Manitoba.

VEPE - Vehicle Experimental Proving Establishment.

VPE - No. 1 Vehicle Proving Establishment (from LAC)

Ordnance Proving Ground, VPE, VDE, DVD, & VEPE Reports

Box	Agency	Report Number	Title	Date
25	NDHQ/VPE	0 - No number	Canadian Proof Manual for Wheeled AFV's and "B" Vehicles	19-Jun-44
